AFCEA INTERNATIONAL ANNOUNCES THE ELECTION OF SCOTT WINN TO THE TECHNOLOGY COMMITTEE

Winn to work with Committee to oversee the Association's outreach to the information technology community

Columbia, MD, June 30, 2009 — Tresys Technology, a provider of technology and services for customers with high security requirements, today announced that Scott Winn, Director, Intelligence Programs, has been elected to the Technology Committee of the Armed Forces Communications and Electronics Association (AFCEA) International.

AFCEA International, established in 1946, provides the military, government, industry, and academia with an ethical forum for advancing professional knowledge and relationships in the fields of communications, information technology (IT), intelligence, and global security. As a member of the Technology Committee Mr. Winn will work with a distinguished group of academic and industry volunteers and government liaisons that oversees the Association's outreach to the IT community to cultivate a partnership between the governmental, academic, and industrial sectors of the community and to foster the application of communications, electronic processes and IT.

"The AFCEA Technology Committee serves as a vital hub for the IT community, ensuring a valuable partnership among government, academia and industry," said Mr. Winn. "I'm excited to serve my term with the Committee during this critical juncture in IT and I look forward to promoting the Committee's objectives including the further development and support of the technical program of AFCEA's SOLUTIONS Series events."

Mr. Winn, who joined Tresys Technology in 2008, leads the company's Intelligence Programs and has nearly 30 years of leadership and management experience with significant technical depth in the IT industry which includes experience in the fields of Information Assurance, voice and data networking, call center hardware and software, networking equipment, IT consulting and advisory services, databases and wireless technologies. Before joining the private sector, Mr. Winn began his career in the United States Air Force logging 3,600 hours of flight time and over 170 combat missions as an airborne linguist. After transitioning from active duty to the reserves, Mr. Winn became an Army Intelligence officer and went on to serve as Chief Instructor at the Officer Candidate School where he was commissioned. His awards and Decorations include eight Air Medals, four Army Commendation Medals, two Army Achievement Medals and the Armed Forces Expeditionary medal.

Mr. Winn has been a member of AFCEA since 2006, and worked extensively on the first SOLUTIONS Series that promoted a detailed interactive dialogue between government and industry on issues of national importance.

Mr. Winn is a graduate of Excelsior College with a Bachelor of Science Degree in Political Science and Chinese Area Studies, and is active in various industry associations and civic groups. He resides in Hunt Valley, MD, with his wife and two young children.
