**Tresys Technology Named As a Best Place to Work**  
*The Baltimore Sun Honors Company as a “2011 Top Workplace”*

Columbia, MD (December 8, 2011)—Tresys Technology, a provider of technology and services for customers with high security requirements, today announced that it has been selected as one of the Baltimore area’s best employers. Tresys was chosen as #27 in the Small Employers’ category. There were 117 companies that participated in the selection process and 75 companies were down-selected for the Baltimore Sun’s annual “Top Workplaces” award

The evaluation for the “Top Workplaces” program was based upon feedback from an employee survey performed by WorkplaceDynamics that employees completed during the summer. Employees responded to 23 questions with the most highly ranked and evaluated statement among Baltimore-area employees being “I believe this company is going in the right direction.”

“We are extremely proud to get this feedback from our employees as we consider our company culture the key, not only to our success, but to each employee’s satisfaction and personal fulfillment,” said Tresys CEO Gary Latham. “Our culture is based on innovating security solutions while simultaneously showing our people that we value them and their contributions. It is a critical element of who we are as a company and we strive to preserve and balance this unique environment with the challenges of growing the business.”
